

NETWORK USER AGREEMENT STATEMENT – NOTICE AND CONCENT PROVISION

By signing this document, you acknowledge and consent that when you access the Bible Center Church information systems:

You are accessing a Bible Center Information System which includes any device attached to this information system and is for official use only.

You consent to the following conditions:

- Bible Center Church routinely intercepts and monitors communications on this information system for purposes including, but not limited to, penetration testing, monitoring, network operations, personal misconduct, and law enforcement. At any time Bible Center may inspect and seize data stored on or transmitted from this information system.
- Communications using, or data stored on, this information system are not private, are subject to routine monitoring, interception and search and may be disclosed or used for any law enforcement use.
- This information system includes security measures (e.g. authentication and access controls) to protect Bible Center data and is not for your personal benefit or privacy.
- Notwithstanding the above, using an information system does not constitute consent to personal misconduct, law enforcement or searching or monitoring of the content of privileged communication or data (including work product) that are related to personal representation or services by attorneys, psychotherapist, or clergy and their assistants. Under these circumstances, such communications and work product are private and confidential, as further explained below.
 - Nothing in this User Agreement shall be interpreted to limit the user’s consent to, or in any other way restrict or affect, any Bible Center actions for purposes of network administration, operation, protection, or for communications security. This includes all communications and data on an information system, regardless of any applicable privilege or confidentiality.
 - This user consent to interception/capture and seizure of ALL communication as data for any authorized purpose (including personal misconduct, law enforcement or investigation). However, consent to interception/capture or seizure of communications and data is not consent to the use of privileged communication or data for personnel misconduct, law enforcement or investigation against any party and does not negate any applicable privilege or confidentiality that otherwise applies.
 - Whether any particular communication or data qualifies for the protection of a privilege, or is covered by a duty of confidentiality, is determined in accordance with established legal standards and policy. Users are strongly encouraged to seek personal legal counsel on such matters prior to using an information system if the user intends to rely on the protections of a privilege or confidentiality.
 - Users should take reasonable steps to identify such communication or data that the user asserts are protected by any such privilege or confidentiality. However, the user’s identification or assertion of a privilege or confidentiality is not sufficient to create such protection where none exist under established legal standards and policy.
 - A user’s failure to take reasonable steps to identify such communications or data as privileged or confidential does not waive the privilege or confidentiality if such protections otherwise exist under established legal standards and policy. However, in such cases Bible Center is authorized to take reasonable action to identify such communication or data as being subject to a privilege or confidentiality, and such actions do not negate any applicable privilege or confidentiality.
 - These conditions preserve the confidentiality of communication or data, and the legal protections regarding the use and disclosure of privileged information, and thus such communications and data are private and confidential. Further Bible Center shall take all reasonable measures to protect the content of captured/seized privileged communications and data to ensure they are appropriately protected.
- In cases when the user has consented to content searching or monitoring of communications or data for personnel misconduct, law enforcement, or investigative searching, (i.e. for all communications and data other than privileged communication or data that are related to personal representation or services by attorneys, psychotherapists, or clergy, and their assistants), Bible Center may, solely at its discretion and in accordance with policy, elect to apply a privilege or other restriction on the Bible Centers otherwise-authorized use or disclosure of such information.
- All of the above conditions apply regardless of whether the access or use of an information system includes the display of a Notice and Consent Banner (“banner”). When a banner is used, the banner functions to remind the user of the conditions that are set forth in this User Agreement, regardless of whether the banner describes these conditions in full detail or provides a summary of such conditions, and regardless of whether the banner expressly references this User Agreement.
